

# BREADFAST

TA: REHAM KOUTA

RANA KHALED	211014597
HANIA SAMY	211005144
YOUSSEF WALAA	211004397
YOUNNA MOHAMED	211004328

- **Introduction:**

Breadfast, born out of a commitment to revolutionize the way Egyptians start their day, emerged as a beacon of convenience and freshness in the bustling world of online commerce. Founded with a passion for delivering quality bakery products to doorsteps, Breadfast has since evolved into a comprehensive online supermarket, offering a delightful array of breakfast essentials and groceries to households across Egypt.

In its nascent stages, Breadfast's journey was deeply rooted in the belief that mornings deserve a fresh start. Beginning with a humble assortment of bakery delights, the company quickly garnered a loyal following for its commitment to sourcing the finest ingredients and delivering them directly to customers' homes. As dawn broke, so did Breadfast's ambition, expanding its offerings beyond the realm of baked goods to encompass a diverse range of pantry staples, including fresh produce, meats, and dairy products.

Driven by a relentless pursuit of customer satisfaction, Breadfast embraced the digital landscape, crafting an intuitive online platform that seamlessly connects discerning consumers with a curated selection of premium products. With just a few clicks, customers can embark on a culinary journey, exploring a treasure trove of flavors and indulging in the convenience of doorstep delivery.

Today, Breadfast stands tall as more than just an online marketplace; it is a testament to innovation, resilience, and the power of a shared morning ritual. With a network of branches spanning the length and breadth of Egypt, Breadfast continues to redefine the breakfast experience, one delivery at a time.

- **Business type nature:**

Breadfast operates in a B2C (Business to Customer) model, serving individual customers directly through its online platform and delivery services.

- **Company Main Parties:**

Vendors/Suppliers: crystal, lion, juhayna, lamar, dina farms, abo ali, fine, edita, oxi, nivea and loreal paris.

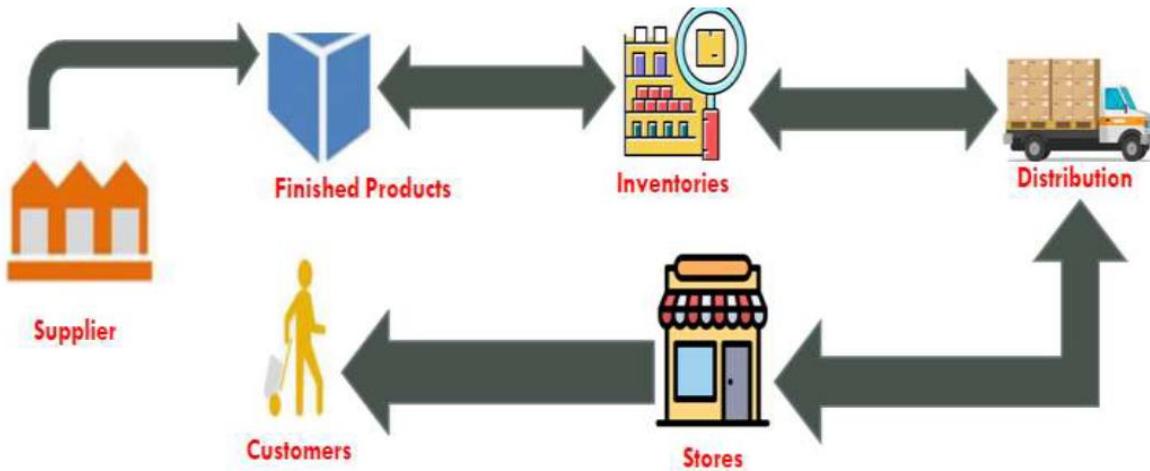

Customers: Individual customers who place orders through the Breadfast website or app.

Main Products/Services: Fresh bakery products, breakfast items, groceries, meat, fish, and chicken.

Branches/Warehouses: Breadfast operates multiple branches and warehouses across Egypt to manage inventory and facilitate deliveries which are:

Rehab, mega mall, city center HQ, Sheraton, heliopolis, new cairo 2, 6<sup>th</sup> of October, madint nasr, sheikh Zayed, abdeen, new cairo 1, district 5, shoubra, maadi 2, obour, el sherouk, cairo festival, mokattam, mivida, rehab 3 and maadi 1

**Supply Chain Management Cycle:**

### **1. Inventory:**

## b. Product Categories:

breadfast has many product categories which are:

beauty, coffee, diaries, food cupboard, fresh juices, frozen, fruits and vegetables, home supplies ex: batteries, hot drinks, laundry detergents, meat, poultry and seafood, oriental desserts, personal care, pet supplies, pharmacy, ready to eat, snacks, stationert, supplements and tissues.

In this step we should determine the force removal strategy and costing method.

For example:

The screenshot shows the Odoo Product Categories configuration page. At the top, there are tabs for Inventory, Overview, Operations, Products, Reporting, and Configuration. Below the tabs, a breadcrumb navigation shows 'New Product Categories' under 'All / meat, poultry & seafood'. There are two tabs at the top right: 'Products' (with 3 items) and 'Putaway Rules'. On the right, there are icons for a message (2), a circle (1), and a refresh (R). The main content area has a header 'Category' and a title 'meat, poultry & seafood'. It shows 'Parent Category' as 'All'. Under 'LOGISTICS', 'Force Removal Strategy' is set to 'First In First Out (FIFO)'. Under 'INVENTORY VALUATION', 'Costing Method' is set to 'Standard Price'.

We use first in first out “fifo” because the shelf life of meat, poultry and seafood is short.

The screenshot shows the Odoo Product Categories list. At the top, there are tabs for Inventory, Overview, Operations, Products, Reporting, and Configuration. Below the tabs, a breadcrumb navigation shows 'New Product Categories'. There is a search bar with placeholder 'Search...' and a dropdown arrow. On the right, there are icons for a message (2), a circle (1), and a refresh (R). The main content area lists numerous product categories, each with a checkbox. The categories include: All, All / Expenses, All / Saleable, All / Saleable / Booking Fees, All / bakeries and pastries, All / beauty, All / coffee, All / diaries, All / food cupboard, All / fresh juices, All / frozen, All / fruits and vegetables, All / home, All / hot drinks, All / laundry detergents, All / meat, poultry & seafood, All / oriental desserts & kahk, All / personal care, All / pet supplies, All / pharmacy, All / ready to eat, All / snacks, All / stationery, All / supplements, and All / tissues.

## A.Inventory Operations:

We have different operation type in addition the the existing operations and each is specified to a branch and each branch can have one or more operation type; it depends on the branch capacity.

For example:

In this operation we donate to food bank from our main branch.

In each operation we should determine the type of operation, sequence prefix, warehouse, return type, default returns location and locations.

The screenshot shows a software interface for managing inventory operations. At the top, there is a navigation bar with icons for Inventory, Overview, Operations, Products, Reporting, and Configuration. On the right side of the header, there are three small circular icons with numbers (2, 1, R) and a magnifying glass icon. Below the header, there is a toolbar with buttons for New, Operations Types, and a search field containing 'main branch-city center: food bank'. To the right of the search field are buttons for Back (blue), Forward (green), and Refresh (purple). The main content area displays a configuration page for an 'Operation Type' named 'food bank'. The page has tabs for General and Hardware, with General selected. Under General, there are several configuration options: 'Type of Operation' set to 'Receipt', 'Sequence Prefix' set to '103', 'Warehouse' set to 'main branch-city center', 'Returns Type' set to 'Heliopolis: Receipts', 'Default returns location' set to 'Partners/Vendors', and 'Create Backorder' set to 'Ask'. Below these, there is a section titled 'LOCATIONS' with two entries: 'Default Source Location' set to 'Partners/Vendors' and 'Default Destination Location' set to 'mn/stock/Stock'. The entire interface has a clean, modern design with a light blue background and white cards for each configuration item.

## Paid part of the full amount

### 3.Inventory- operations:

#### A.internal transfer:

We do this step if the products are shipped to one warehouse and we want to distribute to other warehouses or we have a huge amount of a product in one warehouse and a little amount in another.

We need to define the contact "which branch will receive the product",the source location, the scheduled date, the effective date , the source document, and the product.

The screenshot shows the Odoo Internal Transfer form for reference HQ/INT/00004. The form details are as follows:

Contact	District 5	Scheduled Date	04/21/2024 17:02:58
Operation Type	main branch-city center: Internal Transfers	Effective Date	04/12/2024 17:08:09
Source Location	mn/stock	Source Document	P00036
Destination Location	mn/stock/Stock		

Below the form, there is a table showing the product details:

Product	Demand	Quantity
cheese taste chips	550.00	550.00

At the bottom of the form, there are buttons for 'Send message', 'Log note', and 'Activities'. The date April 12, 2024, is also visible.

The screenshot shows the Odoo Internal Transfers list view. The table displays the following data:

Reference	From	To	Contact	Scheduled Date	Source Document	Status
HQ/INT/00001	mn/stock/Stock	mn/stock/Stock	District 5		P00010	Done
HQ/INT/00004	mn/stock	mn/stock/Stock	District 5		P00036	Done
HQ/INT/00005	mn/stock	mn/stock/Stock	District 5		P00036	Done
HQ/INT/00002	mn/stock/Stock	d5	district 5			Done
HQ/INT/00003	mn/stock/Stock	mn/stock/Stock	District 5			Done

b.scrap:

we do this step to know if we have products that are damaged due to poor storage or anything that's not related to suppliers or the manufacturer.

In this step, we need to define which products we need to throw away and its quantity.

The screenshot shows the Odoo Scrap Orders interface. At the top, there is a red banner stating "Database neutralized for testing: no emails sent, etc.". Below it, a navigation bar includes links for Inventory, Overview, Operations, Products, Reporting, Configuration, and a "Scrap Orders" button with the ID SP/00005. A "Product Moves" search bar is also present. On the right, there are notification icons (2 messages, 1 email, and a refresh icon) and a status bar showing "1 / 5" and "Draft".

The main area displays a scrap order for "SP/00005". The details are as follows:

Product	croissant	Source Location	ab/Stock
Quantity	7.00	Scrap Location	Virtual Locations/Scrap
Source Document			
Date	04/12/2024 17:28:19	Replenish Quantities <input checked="" type="checkbox"/>	

At the bottom left are "Send message" and "Log note" buttons. On the right, there are search, filter, and "Following" options. A timestamp "April 12, 2024" is shown. Below the main area, a sidebar shows activity logs:

- rana khaled - 7 hours ago: Draft → Done (Status)
- rana khaled - 7 hours ago: Scrap created

The screenshot shows the Odoo Scrap Orders interface with a list of existing scrap orders. The top navigation bar and search bar are identical to the previous screenshot. The main area displays a table of scrap orders:

Reference	Date	Product	Quantity	Source Location	Scrap Location	Status
SP/00005	04/12/2024 17:28:19	croissant	7.00	ab/Stock	Virtual Locations/Scrap	Done
SP/00004	04/12/2024 17:26:51	beef frozen minced meat (500g)	1.00	cfc/Stock	Virtual Locations/Scrap	Done
SP/00003	04/12/2024 17:26:11	Pineapple Danish	4.00	mn/stock/Stock	Virtual Locations/Scrap	Done
SP/00002	04/12/2024 17:25:30	nutella jar	2.00	ab/Stock	Virtual Locations/Scrap	Done
SP/00001	04/12/2024 17:24:14	Brown crackers	10.00	he/Stock	Virtual Locations/Scrap	Done

## C. Apply Receipts from the Inventory Module:

We do this step to know if the quantity we received is the same as we ordered. "inventory"

The screenshot shows the Odoo Inventory Overview page for picking ID HQ/IN/00006. The header includes tabs for New, Inventory Overview, and Heliopolis: Receipts. The main section displays the receipt details: Receive From (Breakfast), Destination Location (mn/stock/Stock), Back Order of (HQ/IN/00005), Scheduled Date (04/27/2024 19:19:18), Deadline (04/27/2024 19:19:18), and Source Document (P00008). Below this, a table lists the products: coffee beans (Demand: 50.00, Quantity: 50.00) and strawberry juice (Demand: 60.00, Quantity: 60.00). Buttons for Send message, Log note, and Activities are at the bottom.

The screenshot shows the Odoo Inventory Overview page for picking ID HQ/IN/00006. The header includes tabs for New, Inventory Overview, and Heliopolis: Receipts. #### 4- Sales order – Configuration:

##### A. Enter Sales Teams & link with warehouses:

we have a sales team in each warehouse and each sales leader has 2 or more employees who are working under him.

Sales Team	Team Leader
Heliopolis	youssef
madint nasr	rana khaled
district 5 sales	mohamed magdy
rehab sales	ahmed khaled
mega mall sales	aly walid
city center sales	farah hesham
sheraton sales	roula ashraf
new cairo 1	luji adel
new cairo 2	manar abdelaziz
6th october sales	youmna mohamed
madint nasr	habiba mohamed
shoubra sales	hania samy
maadi-2 sales	halla ashraf
obour sales	marwan mohamed
elshrouk sales	zeinab khaled

The screenshot shows the Odoo Sales Teams list view. At the top, there are tabs for 'Odoo - Sales Teams' and 'Odoo - Warehouses'. The main title is 'breadfast-03.odoo.com/web?action=190&model=crm.team&view\_type=list&cids=1&menu\_id=205'. Below the title, a banner says 'Database neutralized for testing: no emails sent, etc.' A search bar with placeholder '\$search...' is present. The list contains 14 entries:

Sales Team	Team Leader
city center sales	farah hesham
sheraton sales	roula ashraf
new cairo 1	luji adel
new cairo 2	manar abdelaziz
6th october sales	younna mohamed
madint nasr	habiba mohamed
shoubra sales	hania samy
maadi-2 sales	halia ashraf
obour sales	marwan mohamed
elshrouk sales	zeinab khaled
cairo festival city sales	malak khaled
mokattam sales	maya ashraf
minida sales	aya sayed
rehab03 sales	ahmed mohamed
maadi sales	sohier khaled

B. Inside each sales Team add 2 members minimum beside the team leader:

### C-. Apply SO with register payment (partially by one invoice).

Tara ordered 200 units from lays classic and paid 2500 as her first installment and 2060 as her 2<sup>nd</sup> insatlment

The screenshot shows a software interface for managing invoices. At the top, there's a navigation bar with links for Sales, Orders, To Invoice, Products, Reporting, and Configuration. Below this is a toolbar with buttons for New, Send & Print, Preview, Credit Note, and Reset to Draft. The main area displays a customer invoice for INV/2024/00025. The invoice header includes the date 04/13/2024, payment reference INV/2024/00025, due date 04/13/2024, and delivery date 04/13/2024. A large green diagonal banner across the invoice area says 'PAID'. Below the header, there are two tabs: 'Invoice Lines' and 'Other Info'. The 'Invoice Lines' tab is selected, showing a table with columns for Product, Label, Quantity, Price, Taxes, and Activate Windows (Tax excl.). One row in the table shows 'lays classic' with a quantity of 200.00, price of 20.00, and taxes of 14%, totaling 4,000.00 LE. The 'Other Info' tab is also visible. At the bottom of the screen, a taskbar shows various application icons and the system clock indicating 3:13 PM on 4/13/2024.

## e.list of moves history grouping by locations:

The screenshot shows the Odoo web interface for the 'Moves History' module. The top navigation bar includes links for Gmail, Fingerprint Based A..., vcn, AAST, Your Account | Scribd, gmc, Databases | Odoo, and a user icon. A red banner at the top states 'Database neutralized for testing: no emails sent, etc.' Below the banner, the page title is 'Moves History'. The main content area displays a table of moves, grouped by location. The columns are: Date, Reference, Product, From, To, Quantity, and Status. The table contains 18 rows, each starting with a triangle icon and a category name followed by a count in parentheses. The total quantity for all moves is 16,210.00.

Date	Reference	Product	From	To	Quantity	Status
▶ Partners/Customers (11)					194.00	
▶ Partners/Vendors (30)					14,144.00	
▶ SH/Stock (1)					800.00	
▶ Virtual Locations/Inventory adjustment (56)					16,210.00	
▶ ab/Stock (2)					9.00	
▶ cfc/Stock (1)					1.00	
▶ d5/Stock (4)					320.00	
▶ he/Stock (6)					41.00	
▶ mn/Stock (29)					3,292.00	
▶ mn/stock (2)					1,000.00	
▶ mn/stock/Stock (9)					667.00	
▶ shou/Stock (1)					6.00

The screenshot shows a Odoo Move Analysis pivot view. The top navigation bar includes links for Gmail, Fingerprint Based A..., vcn, AAST, Your Account | Scribd, gmc, Databases | Odoo, and a back/forward button. A red banner at the top states "Database neutralized for testing: no emails sent, etc.". Below the banner, the main menu has options for Inventory, Overview, Operations, Products, Reporting, and Configuration. The current view is titled "Move Analysis". A search bar contains the number "194.00" and the letter "11". The main content area displays two rows of data in a grid format. The first row has values 194.00 and 11. The second row has values 1,000.00 and 1. A third row is partially visible below the second. The right side of the screen features a vertical sidebar with icons for message notifications (2), user profile, and other system functions.
